ABOUT

Helen Currie Foster focuses on addressing and resolving environmental issues in various forums including agencies and courtrooms. In addition to general business and regulatory litigation, she has special experience with environmental issues, permitting and remediation, response cost liability, and statutory requirements (Texas and federal) including CERCLA, Clean Water Act, and RCRA). She counsels clients on a wide range of land and water issues, including environmental issues in real estate purchase and sale. She serves on the GDHM team representing Lost Pines Groundwater Conservation District. Recent experience includes representing clients on groundwater rights and water supply issues, on cleanups resulting from industrial and oil and gas-related activities, and on voluntary cleanup program and innocent owner program transactions.

PROFESSIONAL QUALIFICATIONS

- Admitted to bar, 1983, Michigan; 1985, Alabama; 1998, Texas. Adjunct Professor of Environmental Law, University of Alabama at Birmingham (Civil Engineering Department), 1996-1998. Other Language: French.
- Education: Wellesley College (B.A.); University of Texas (M.A.); University of Michigan (J.D., magna cum laude). Order of the Coif. Wellesley College Scholar.

REPRESENTATIVE EXPERIENCE

- Representing Lost Pines Groundwater Conservation District (Desired Future Conditions petition litigation; permit and governance issues).
- Representing landowners in cleanups pursuant to Texas Commission on Environmental Quality and Railroad Commission requirements.
- Representing Texas municipality to resolve water supply contract disputes.
- Serving on team defending Texas river authority in contract litigation.
- Representing developer in appeal of state water quality certification for wetlands permit.
- Representing intervenor mineral owners in landfill litigation.
- Negotiating resale of commercial property included in Superfund site.
- Defending client in Enron-related securities litigation, both federal and state.
- Representing Texas City's economic development corporations in multi-party land acquisition for proposed Shoal Point container terminal, including environmental considerations.
